***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the transmission antenna" in lines 2 and 3. There is insufficient antecedent basis for this limitation in the claim.

The "transmission system" in line 3 also lacks antecedent basis.

***Claim Objections***

Claims 5-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5-10 not been further treated on the merits.

Claims 1-4,6,7 are objected to because of the following informalities: Dependent claims must refer to the independent claims from which they depend by number (not "according to the above claim"). Appropriate correction is required.

***Allowable Subject Matter***

Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: In etched circuit devices the use of a tuned short circuit termination to form
